Why choose Corel WinDVD Pro?

- Watch the latest Hollywood blockbuster movies in 3D
- Play movies in popular audio and video formats
- Experience the crisp sound quality of Dolby® Digital Sound
- Watch movies wherever you are with battery optimization for your laptop
- Play right from your camera, camcorder or DVD—no downloading required!
- Get hands-on with Windows® 7 touch-screen features
- Blu-ray 3D playback
- GPU-accelerated upscaling for smoother playback of your DVD-video on high-definition display. Upscale DVD-video to fit your HD display, regardless of the platform!
- Support for HD video formats like AVCHD, AVCREC, BD-R/BD-RE and BD-ROM
- Dolby® TrueHD and DTS-HD
- Dolby® Headphone/Dolby® Virtual Speaker/Dolby Pro Logic® IIx
- Trimimension All2HD

Corel® WinDVD® Pro 11 is an advanced 2D and Blu-ray 3D™ player software that supports Blu-ray 3D™, AVCHD™, DVD playback and all the latest video formats. With over 250 million copies sold, WinDVD is one of the world's most recognized products. The Pro version is stacked with features such as an integrated online movie search engine, 3D viewing technology, 2D to 3D conversion, HD upscaling, superior sound and more!

The Standard version delivers all the basics you need for DVD playback.

Expanded 3D playback support & 3D glasses included

Experience 3D your way with WinDVD Pro 11! With leading 3D technologies such as Frame Sequential and Polarization 3D playback, plus support for NVIDIA® 3D Vision™ Shutter Glasses and XpanD™ Polarized Glasses, you have many different ways to watch 3D movies. The box version comes with a free pair of anaglyph glasses.

New integrated online movie search engine

Quickly search premium movie content and find the best prices amongst popular movie sites*. The new Corel® FlixFinder™ lets you browse videos by category, compare prices and bookmark your favorites. Exclusive to WinDVD Pro 11!

Key Features

Watch Blu-ray™ Discs in 3D

Now watch Hollywood movies in 3D! With new Blu-ray 3D technology, and support for both NVIDIA® 3D Vision™ Shutter Glasses and XpanD polarized glasses, you choose how you want to experience your movie.

Play More HD Formats

- Play all Blu-ray Disc formats and AVCREC
- Enjoy direct playback of HD videos recorded with the latest AVCHD™ and Blu-ray Disc camcorders
- Navigate and decode MPEG-2 Transport Stream video so you can watch captured HDTV programs. Easily select content to view with handy navigation tools

Outstanding Blu-ray Performance for Your Blu-ray-enabled PC

- Watch Blu-ray movies in an enthralling 3D environment
- Experience high-definition Blu-ray movies with stunning 1080p sharpness and next-generation surround sound
- Get amazing extras, bonus features and exciting ways to interact with content, brought to you by your BD-Live titles
- Playback HD video from DVD recordable discs with AVCREC support
- Enjoy mouse simulation for BD-J menu navigation

Upscale Video Quality on Standard DVDs

- Experience Corel's brand new upscaling technology that delivers near-HD quality video from standard DVDs
- GPU-accelerated upscaling works across different platforms
- Choose from two modes: basic and advanced

Playback Directly from Camera or Camcorder

Looking at your video on a tiny camcorder or digital camera screen doesn't do the clip justice. Preview videos on your PC directly from your camera, camcorder or storage device for a much clearer picture of the event you captured. Just plug in and press Play!

Superior Home Theater Sound & Headphone Quality

Like you're hearing it live! Get superior sound performance with Dolby Digital® Sound. Easily configure your personal home theater with WinDVD Pro 2010 and the following technologies:

- Dolby Headphone/Dolby Virtual Speaker/ Dolby Pro Logic IIx
- DTS NEO: 6 - get incredible surround sound effects

New GPU/CPU Enhancements

When it comes to video, faster is better. Thanks to new optimization for new CPUs and GPUs, WinDVD is faster than ever before. It outpaces the competition, providing quick, smooth DVD playback and responsive controls.

Extended Battery Life

Now your DVD playback software ensures that your battery lasts the whole movie, every time. The new power plan is designed for optimal performance to extend the battery life on Windows Vista® and Windows® 7—without comprising video quality.

New Design

Find controls faster and easier with WinDVD's new user interface design.

Windows® 7 Support

Moving up to the exciting new user experience of Windows 7? WinDVD Pro 2010 DVD software is ready and waiting. Optimized for the new operating system, it supports key Windows 7 features, including Windows Touch, JumpLists, and Taskbar integration.

Movie Control at Your Fingertips

Take total control of your HD experience with a single touch. Combined with a Windows 7 touch screen PC, WinDVD Pro 2010 lets you access all of WinDVD's controls with the touch of a finger.

TimeStretch

Want to watch a movie that's longer than your trip? WinDVD is the perfect travel companion! Be sure to catch the end of every movie with unique speed control that lets you set the time for DVD playback.

Pan & Zoom

Click and drag your mouse to pan across any part of the screen or use a simple hotkey to zoom in for a closer look. These tools are also ideal for optimizing DVD playback for a widescreen display.

Capture Image/QuickClip

Easily grab a favorite movie scene as a still picture or animated clip, then share it with friends via email.
