### Key Features

#### The input and output formats supported by TOP DVD to iPod Suite

- Convert video formats, like WMV, MPEG, MP4, AVI, 3GP, FLV, VCD, etc. to iPod MP4, iPod MPEG-4 AVC.
- Support the output formats of iPod MP4, iPod MPEG-4 AVC, BMP.

#### Preview the input files before conversion

- Preview the input files before conversion, which allows you to check the correctness of the input files, select your favorite segments and get a general idea of the converted effect.

#### Support batch conversion mode

- With the batch conversion mode, multiple files can be converted in batches at a time, and the conversion speed is unmatched among all the converters.

#### Automatically shut down the computer

- With the auto-shutdown function, you can leave the computer alone even if the conversion is still going on.
- You don't have to wait for the end of conversion beside the computer, and tiring waiting time will be far away from you from now on!

#### Capture pictures during the previewing

- Capture pictures you like during the previewing with a snapshot and store them in
