### **Fully Integrated, Upgradeable Application Suite**

TotalMedia™ Extreme 2 includes our high performance video playback software, our successful data archiving program, and video creation applications designed specifically for high definition technology - all in one elegant, seamlessly integrated solution.

### **ArcSoft TotalMedia® Theatre 3**

The ultimate high-definition movie experience

### **Universal Player, Including Blu-ray**

In addition to playing commercial and homemade DVD movies, the TotalMedia Theatre 3 application plays Blu-ray discs formats — high Definition MPEG-2, AVC, and VC1, AVCHDs, DVDs, CDs, as well as all kinds of other high-definition (HD) content: WMV HD, Quicktime HD, DivX HD, and H.264 HD. Support includes both 1280x720 (720p) and 1920x1080 (1080p).

### **High Quality**

TotalMedia Theatre 3 receives excellent scores on the Hollywood Quality Video Processing test by supporting SD and HD effects such as Noise Reduction, Video Test, and Film Test with mainstream graphic cards.

### **Excellent Performance and Compatibility with Advanced Graphic Processors**

TotalMedia Theatre 3 offers excellent hardware compatibility, working smoothly with high-definition graphic processors from Intel, NVIDIA, and ATI. It is also compatible with commercial discs, bringing users exceptional playback of high-definition content on the PC. With excellent scores on the HQV test, users are guaranteed smooth and colorful playback quality.

### **Next-Generation Home Theatre**

TotalMedia Theatre 3 fully supports the next-generation audio formats used in Blu-ray discs: LPCM, AC-3, DD+, and MLP. It also supports Dolby Surround, Digital 5.1 (AC-3), and DTS Surround Sensation virtual speaker. Once your favorite soundtracks are playing, fine-tune your audio experience with our broad 10-band equalizer. Pick from a variety of presets or customize the sound to your personal taste.

### **Windows Media Center Edition Plug-in**

The program comes with a Windows Media Center Edition plug-in built right in! The plug-in provides a "10 foot" user experience: automatic full screen mode and compatibility with your remote control mean you can use TotalMedia Theatre 3 to watch your Blu-ray movies from the comfort of your couch.

---

## ArcSoft TotalMedia® Studio 3

Create high-definition home Blu-ray movie discs, complete with menus and scene selections. Use the TotalMedia Studio application to capture, edit, and author customized high definition (or standard definition) content, like photo slideshows and home movies. It is for making discs that contain scene selection menus and chapters. Simply follow the steps along the top of the screen and design your own scene selection menus or use the provided templates. Then burn your content to Blu-ray, AVCDH disc or DVD.

## ArcSoft Showbiz® 3.5

The easiest way to edit and share your home movies

Use the ShowBiz 3.5 application to capture and edit your standard or high-resolution home movies by combining videos, photos, music, and transition effects. You can also trim your videos, add a soundtrack, and personalize it by adding a logo, title, and credit screens. When finished editing, you can easily convert your movies to play on most portable devices like iPhone, iPod, Apple TV, PSP, PS3 and Xbox360; or you can share them by uploading to YouTube.

## ArcSoft TotalMedia® Backup & Record and Utilities 2

Archive data, rip and create audio CDs, and duplicate discs with ease

### Backups and Data Mastering

Whether your most important files are audio, video, email messages, or Internet Explorer favorites, the TotalMedia Backup & Record and Utilities applications let you easily back up and restore everything you can think of. Simply click one button to select all your irreplaceable files, then click once more to back them up to CD, DVD, or BD.

You can also create or rip audio CDs, create and burn disc images. It's a complete data mastering solution!

### Music and Data

TotalMedia Extreme 2 isn't just about video. You can create audio CDs to play in your car or from your home stereo system. You can rip your audio CDs to hard discs in a variety of formats, and you can copy CDs easily. Both music and data discs are easy to create or duplicate, whether you prefer CD, DVD, or BD format.

### File Formats

- **File playback -**

Video: MPEG-1 (.dat), MPEG-2 (.M2V, .TS, and etc.), MPEG-2 HD (.M2TS, .M2T, .MTS), MPEG-4 (.MP4), WMV, WMV HD, DVR-MS, H.264 (.264, .26L, .H264, .AVC, .JSV, .JVT and etc.) , VC1, DV AVI, Real (.RM\*, .RMVB, .RAM), QuickTime (.MOV, .QT), FLV, DivXAVI\*, DivX HD, VOB, ASF, DAT, VRO,3GP, 3G2

\*Note: Divx AVI (with DivX codec installed)

Audio: WAV, WMA, AAC and audio CDs

- **File output** - Mpeg (mpeg-1/2), MP4 (h.264/mpeg-4), WMV, AVI, ASF, MOV and 3GP
- **Disc creation** - Blu-ray (BDMV), AVCHD, DVD-video and VCD disc

## Key Features

**Customize your own fully integrated application suite by selecting from the following set of applications:**

### ArcSoft TotalMedia® Theatre 3

Fully supports Blu-ray movies and high-definition video playback, with advanced video features such as Smart Stretch and Auto Enhance. Also supports next-generation home theatre audio, for the best audio-visual experience.

### ArcSoft TotalMedia® Studio 3

Author high-definition content with BDMV and AVCHD format.

### ArcSoft ShowBiz® 3.5

Edit and capture video files and share to YouTube; provides output compatible files for portable devices such as iPod, iPhone or PSP.

### ArcSoft TotalMedia® Backup and Record 2

Easily backs up or burns multimedia and data files to Blu-ray or DVD discs.

### ArcSoft Utilities

Create and burn disc images, erase discs, and make disc labels.
